

serie SPX

SPX Series, small format and high precision.

- Scale made entirely of ABS.
- Stainless steel plate.
- Display LED with internal illumination.
- 100% tare range.
- Piece counting function.

Main applications

The **GRAM SPX Series** offers basic weighing, sufficient for most applications. It is well suited for packaging, product testing and general weighing applications. With a very robust ABS construction, they are suitable for the most intensive use.

The entire series is equipped with the monotype RX3 weigh cell, made of high-strength aluminium, which not only provides high accuracy, but also long life and high reliability.

Particularly suitable for packaging and control processes in the agricultural industry (strawberries, mushrooms, tomatoes, etc.).

Low profile

Low profile scale, easy to transport and convenient to store.

AC power supply and dry batteries

AC power supply or AAA 1.5V dry batteries (optional) for use in any location.

Technical specifications

Power supply: 6V adapter

Batteries: 4 AAA 1,5V batteries (not included)

Working temperature: +5°C /+35°C

Technical characteristics

Model	SPX-600-D	SPX-1000-D	SPX-3000-D	SPX-6000
Reference	6926	6928	6929	6927
Capacity	600 g	1000 g	3000 g	6000 g
Resolution	0,1 g	0,1 g	0,1 g	1 g
Quantities available for sample input into piece counters	10, 20, 50, as chosen			
Weighing units	g (kg), lb, oz/lb			
Tare range	100% of full scale			
Structure material	ABS			
Material de la plataforma	Stainless steel			
Platform dimensions (mm)	155 x 155			
Overall Dimensions(mm)	170 x 250 x 60			
Net product weight (kg)	0,626			
Total weight with packaging (kg)	0,785			

External dimensions (mm)
